IDPlus HC

Refrigeration controllers compatible with hydrocarbons

R290 COMPATIBLE

- ✓ Compatible with flammable refrigerants such as R290 and R600
- ✓ Suitable for the entire range of static and ventilated units
- ✓ Technical manual available via QR code in myEliwell APP

Controllers in the **IDPlus HC** range are devices developed to be used on static and ventilated units that use **flammable refrigerants** in category 2L or 3, such as **R290** (propane) or **R600** (isobutane).

The new following functionalities have been added:

> **Easy Map**: 4 preloaded machine configurations quickly selectable upon start up.

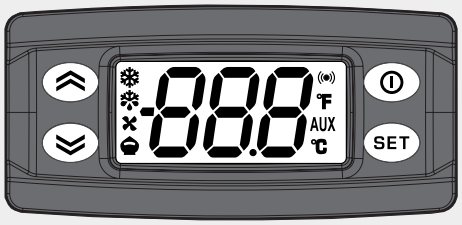

> **Deep Cooling Cycle**: allowing the rapid decrease of temperature either upon start up or after the refrigerated unit has been loaded.

> **Condenser Over Heating**: monitors the compressor discharge temperature, signalling any condenser maintenance requirements.

> **HACCP**: algorithm that allows to record temperature alarms and black-out events.
